HAPPY DAY BOAT

9-metre E-hybrid catamaran

EVERBOAT

manufactured in Oléron, France

The catamaran for good days at sea

Happy Day Boat is a 9-metre power catamaran designed for day trips: a 20 m² deck platform for up to 15 people, an igloo cabin for two, and E-hybrid propulsion that lets you cruise in silent all-electric mode or in hybrid mode at up to 25 knots.

01

E-hybrid propulsion

In electric mode, two 8 kW motors housed in side nozzles drive and manoeuvre the boat with no external propeller and no articulated parts. In hybrid mode, the inboard engine takes over with a 30 HP electric boost when getting on the plane, and recharges the battery under way.

02

Space and versatility

Forward sunpad, sociable cockpit, igloo cabin and an optional swim platform at water level: the boat adapts to family cruising, rental or passenger trips. With a 50 cm draught it can approach beaches and shallow areas.

03

Built in Oléron

Hull, deck and hatches are vacuum-infused at the Le Château-d'Oléron shipyard, a process that makes parts lighter and cuts resin use and emissions.

TECHNICAL SPECIFICATIONS

Length overall	9.00 m	Berths	2 (igloo cabin)
Hull length	8.35 m	Fuel / fresh water	420 l / 105 l
Beam	2.97 m	Combustion engine	Z-drive inboard, 200–430 HP
Draught	0.50 m	Electric propulsion	2 × 8 kW in nozzles
Air draught	3.00 m	Battery	Lithium 22 kWh — 48 V
Light displacement	3.8 t	Maximum speed	25 knots in hybrid mode
CE category	C — 15 persons	Electric mode	5 knots, 2 h range
Deck area	20 m²	Charging	5 h shore power (230 V, 16 A) · 2 h under way

Nozzle propulsion patented in Europe (EP 3 717 348 B1).

Standard equipment

- E-hybrid propulsion: Z-drive inboard engine depending on version and two 8 kW electric motors in side nozzles
- Lithium battery 22 kWh — 48 V, 230 V / 16 A shore charging and regeneration under way
- Electric steering with hydraulic assistance
- 420 l fuel tank, 105 l fresh water tank
- Vacuum-infused polyester hull and deck
- Seaman pilot seat, cream
- Locker cabin with two electric rams (no upholstery or canvas)
- Bench extension (instead of the plancha unit)
- Storage with hatch (instead of the fridge)
- Starboard gate for swim platform access
- Chemical toilet

2027 versions

DESCRIPTION	PRICE
Z-DRIVE INBOARD	
Petrol V8-350 Mercruiser	On request
Petrol V6-200 Volvo Penta	On request
Petrol V8-350 Volvo Penta	On request
Petrol V8-380 Volvo Penta	On request
Petrol V8-430 Volvo Penta	On request
Diesel Z4-270 Nanni	On request

2027 options

DESCRIPTION	PRICE
ADDITIONAL OPTIONS	
Esthec cockpit decking	On request
Coloured gelcoat hull (RAL to be specified)	On request
Polyester T-Top with clear side, aft and forward enclosures	On request
Forward seating area with table converting into sunpad	On request
48V DC / 230V AC inverter (1,200 W) — socket in starboard cabin — 30 mA RCD	On request
Flexible solar panels on T-Top, 1,260 W Not compatible with kayak / paddleboard mounting bar on T-Top	On request
Second starboard battery pack, 23 kWh	On request
Deck floodlight	On request
DC-DC converter 48/12V for accessories (max 300 W)	On request
Starboard gate for swim platform access	On request

2027 options (continued)

DESCRIPTION	PRICE
COMFORT AND FIT-OUT	
Stainless steel T-Top 8.2 m² with waterproof LATIM Dralon canvas	On request
Mounting bar for 2 inflatable kayaks / paddleboards on T-Top	On request
Extendable T-Top (+2.6 m²) sliding aft	On request
Afrormosia wood saloon table with telescopic pole and protective cover	On request
Sylvertex pilot and co-pilot seats in the chosen upholstery colour Standard: Seaman pilot seat, cream	On request
Sylvertex fabric sunpad	On request
Sunpad protective cover — waterproof Latim canvas	On request
Sylvertex cockpit upholstery and cushions	On request
Cockpit table upholstery (converts into aft sunpad)	On request
Igloo cabin: Latim canvas and Sylvertex-upholstered interior berth Standard: locker cabin with two electric rams, no upholstery or canvas	On request
Afrormosia plancha unit with cover — 30x45 cm gas griddle Standard: bench extension instead of plancha	On request
Tilting swim platform (stainless steel and moabi) at water level Standard: starboard gate for swim platform access	On request
100 L drawer fridge Standard: storage with hatch instead of fridge	On request
Blue LED floor lighting	On request
Electric seawater marine toilet with 110 L black water tank Standard: chemical toilet	On request
12V battery charger	On request
Electric anchor windlass 1000W	On request
Starboard cabin wooden unit with storage box	On request
